

THIRD EYE FORENSIC REPORT

Case File — Chain of Custody

Filename	mparivahanv3.apk
SHA-256	1ced03ebfab92b312c049dbfa4381a593ca1aed05380760372608b9bbebb115f
MD5	6a46b23dce25a5653e09c018046d06be
File size	6,390,989 bytes
Package	com.cristal.bristral.tristal.mistral
Report generated	2026-07-05 05:11:32 UTC
Tool / version	Third Eye v1.0

VERDICT

Risk level: CRITICAL (score: 10)

Multiple strong indicators of active command-and-control behavior.

- **+4** — Runtime behavior: dropped apk write: Filesystem sweep found a new .apk file written during this run that runtime hooks didn't catch: /data/app/vmdl2069226191.tmp/base.apk — likely written via an API not covered by the current Frida hooks (e.g. buffered/native writes, or a temp-name-then-rename pattern).
- **+4** — Runtime behavior: dropped apk write: Filesystem sweep found a new .apk file written during this run that runtime hooks didn't catch: /data/app/vmdl674875574.tmp/base.apk — likely written via an API not covered by the current Frida hooks (e.g. buffered/native writes, or a temp-name-then-rename pattern).
- **+4** — Downloaded and dropped additional APK(s) at runtime: 2 second-stage APK(s) retrieved and analyzed: com.android.pictach (risk 7/10), com.android.pictach (risk 7/10)
- **+4** — Undisclosed runtime destination(s): 2 host(s) contacted at runtime with no trace in static code: 49.44.130.137, www.msftconnecttest.com
- **+3** — Dangerous permissions declared: SYSTEM_ALERT_WINDOW, REQUEST_INSTALL_PACKAGES, WRITE_EXTERNAL_STORAGE
- **+2** — Exported components without permission guard: activity:None, receiver:com.cristal.bristral.tristal.mistral.InstallReceiver, receiver:androidx.profileinstaller.ProfileInstallReceiver
- **+2** — Suspicious code keyword(s): cmd=

APPLICATION DETAILS

- App name: e-Challan Mobile App
- Package: com.cristal.bristral.tristal.mistral
- Version: 1.0 (code 1)
- Min SDK / Target SDK: 21 / 34

DANGEROUS PERMISSIONS

- **android.permission.SYSTEM_ALERT_WINDOW** — Can draw over other apps (overlay/phishing attacks)
- **android.permission.REQUEST_INSTALL_PACKAGES** — Can install other APKs (dropper behavior)
- **android.permission.WRITE_EXTERNAL_STORAGE** — Broad file system write access

EXPORTED COMPONENTS WITHOUT PERMISSION GUARD

- activity: None
- receiver: com.cristal.bristal.tristal.mistral.InstallReceiver
- receiver: androidx.profileinstaller.ProfileInstallReceiver

EMBEDDED INDICATORS OF COMPROMISE (STATIC)

Suspicious keywords (1)

cmd=

NETWORK BEHAVIOR (DYNAMIC)

Total HTTP requests captured: 2

Beaconing patterns detected:

No beacon-like patterns detected.

CORRELATION: CLAIMED VS. OBSERVED BEHAVIOR

Confirmed — hardcoded in code AND contacted at runtime (0)

None found.

Dormant — hardcoded but never contacted this run (0)

None found.

Unclaimed — contacted at runtime with no trace in static code (2)

- 49.44.130.137
- www.msftconnecttest.com

SIGNING CERTIFICATE

No issues found.

This report was generated automatically for investigative triage purposes. Findings should be validated by a qualified analyst before use in legal proceedings.
